

# Poverty and Conservation Learning Group (PCLG)

Poverty and  
Conservation  
Learning Group

iied

The **Poverty and Conservation Learning Group (PCLG)** is an international network of organisations that promotes dialogue and information sharing on the **links between biodiversity conservation and poverty alleviation**.

Coordinated by the International Institute for Environment and Development (IIED), we currently have a thematic focus on great apes conservation and a geographic focus on Uganda, Cameroon and DRC.

Why engage with the PCLG?

- \* We host a wealth of information on the links between biodiversity conservation and poverty reduction, including a vast bibliographic database and details of useful tools and resources
- \* We produce a monthly newsletter to keep our members up-to-date with the latest poverty and conservation news, as well as a synthesis of new scientific articles on conservation-poverty issues
- \* We provide targeted information services through our general and thematic mailing lists, and offer members a platform to share their work with like-minded professionals

Visit our website [povertyandconservation.info](http://povertyandconservation.info)

Subscribe to our newsletters [povertyandconservation.info/en/pages/e-bulletins](http://povertyandconservation.info/en/pages/e-bulletins)
